

## K50 & K65

### MOBILE AREA LIGHTING SYSTEMS

**One Person Deployment**

**2 Mins Set Up**

**Adjustable Lighting**

The K65 and K50 range of portable LED Floodlighting is the perfect high power, indoor and outdoor lighting solution for both task and area illumination. These units do not need to rely upon diesel generators as a primary power source.

This mobile range of site lighting can be powered from:

- 110V and 240V mains power
- Ancillary battery
- LPG, Hydrogen or Diesel generator

With the ability to mobilise this lighting system via a single person operation, power capable of being supplied by multiple diesel free energy sources and illumination to rival any traditional mobile tower light, the K65 and K50 floodlights provide a lighting solution to provide the following:

## Features & Benefits

- Rescued noise pollution
- Reduced carbon emissions
- Reduced fuel consumption
- Reduced set up and management time
- Reduced cost
- 6000 sqm of illuminated space guaranteed
- Auto start/stop light sensor
- Mast safety system
- Forklift pockets for easy handling
- 4/6 x 100W LED Floodlights providing instant bright lights with no wait time
- Onboard levels for guidance during stabilisation

# Specifications

## K50 DIMENSIONS (STOWED)

HEIGHT	1950 mm
WIDTH	830 mm
LENGTH	1090 mm
WEIGHT	240 kg

## K50 DIMENSIONS (OPERATING MODE)

HEIGHT	5200 mm
WIDTH	3100 mm
LENGTH	2370 mm
WEIGHT	240 kg

## K65 DIMENSIONS (STOWED)

HEIGHT	1950 mm
WIDTH	830 mm
LENGTH	1090 mm
WEIGHT	250 kg

## K65 DIMENSIONS (OPERATING MODE)

HEIGHT	6620 mm
WIDTH	3100 mm
LENGTH	2370 mm
WEIGHT	250 kg

## LIGHTING & MAST

### K50/K60

360° LIGHTING @20 LUX	Up to 7396 m <sup>2</sup>
LUMENS 200W	28,000 per light head
LUMENS 240W	40,800 per light head
MAST TYPE	Automatic
LIGHT DIRECTION	180/360°
