Wi-fi Telecomms

The most advanced 4G technology for internet use in modular and portable buildings. The weekly hire is from just £30 per week with minimum hire period of 26 weeks. Delivery and collection charges of just £30 each. Fast lead time of only 3 days from date of order. Available from Pickerings depots nationwide.

Features & Benefits

- The highest 4G speeds on the market to help you get work done fast and to improve your workflow.
- Instant plug & play avoids lengthy landline broadband installation waiting time and increases productivity.
- Several networks available giving you the best connection in your area.
- Solutions for one cabin, a site complex or a modular building to provide convenience on all sites.
- Rugged construction site grade equipment built to last in the most enduring conditions.
- Remote management portal with a cap on data use to control your spend and aid financial planning.
- Can be ordered at the same time as your portable accommodation to save hassle, cost and time.
- Unlimited data use so need to worry about buying the right data package.
- Can be installed on the first day of your modular building installation so you're ready to use it immediately.
- Contains high gain antennae and rugged 4G router for business grade internet to provide the perfect solution for your business needs.
