Data Cabling

Pickerings data cabling service can be provided to sites nationwide for a single portable cabin, a cabin complex or a modular building. It is suitable for sites of all sizes.

Features & Benefits

- Connects our high speed internet to network ports, printers, phones & more.

- Ensure internet & voice connectivity.

- Structured cabling allows issues to be more easily identified and resolved.

- Solution for one cabin; a site complex or a modular building.

- Structured cabling comes with very high bandwidth.

- Easy to manage & keeps your cabling under control.

- UK wide installation service.

- Can be ordered at the same time as your Pickerings site accommodation.

- Hides all cables.

- Can be installed the first day your portable & modular buildings are installed on site.

- Combines high gain external antennae & rugged 4G router for business grade internet.

- Provides complete office coverage.

- Speedy resolution, reduces downtime, increases workers productivity.

- Suitable for sites of all sizes for your convenience.

- Ensures the system can support future applications without interruption.

- Easily identify which cable is connected to which location for speedy resolution.

- Saves hassle of managing multiple suppliers by using a single source.

- Creates a tidy & safe working area.

- Provides the perfect solution for your business needs.

- You can also check out our Wifi solutions from our Pickerings+ range.
